GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25-percent discount to dealers does not apply to the Congressional record, Federal register, Supreme Court reports, Catalog of copyright entries, and Climatological data for United States, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 458, 75-3.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington,

D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check List of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^a : So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

NEW GOVERNMENT AGENCY

A Committee on Purchases of Blind-made Products was created under the provisions of Public Act 739, 75th Congress, approved June 25, 1938. The Committee is to be appointed by the President and is to determine the fair market price of all brooms and mops and other suitable commodities manufactured by the blind and offered for sale to the Federal Government by any non-profit-making agency for the blind organized under the laws of the United States or of any State, to revise such prices from time to time in accordance with changing market conditions, and to make such rules and regulations regarding specifications, time of delivery, authorization of a central non-profit-making agency to facilitate the distribution of orders among the agencies for the blind, and other relevant matters of procedure as shall be necessary to carry out the purposes of the act.

EXTENSION OF GOVERNMENT ORGANIZATION

The Quetico-Superior Committee was created by Executive Order 6783 of June 30, 1934, to consult and advise the various Federal Departments and agencies and the State of Minnesota in the furtherance of the program of the Quetico-Superior Council, associated with the Isaak Walton League of America, for the establishment of a wilderness sanctuary in the Rainy Lake and Pigeon River watersheds through which runs the international boundary line between Canada and the United States. It was proposed also that the wilderness sanctuary should be dedicated as a peace memorial to the service men of both countries who served as comrades in the Great War. The Committee was to serve for a period of 4 years. That period has now elapsed and the President has extended the existence of the Committee by Executive Order 7921, dated June 30, 1938, for a period of 4 years, from June 30, 1938, to June 30, 1942.

NEW PRINTED PERIODICAL

Cooperative Saving with Federal Credit Unions is another of the periodicals originally issued in processed form but recently approved by the Director of the Bureau of the Budget for publication as a printed periodical. It is sponsored by the Farm Credit Administration and issued bimonthly in the interest of Federal credit unions. The first processed issue was dated January 1935 and designated volume 1, number 1, but, like many of the other processed periodicals its circulation was limited, this one to those interested in credit unions. It was issued monthly until July 1936 when it was discontinued with

what was then designated as vol. 2, no. 7. Now that it is being printed a "new series" has been started, the first one is "vol. 1 (n. s.), no. 1" and is dated July-August 1938. It is distributed free by the Farm Credit Administration to Federal credit unions but may be obtained from the Superintendent of Documents, Washington, D. C., at 10c. single copy, 50c. a year; foreign subscription, 60c.

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States.

Because the printing allotment for the Experiment station record has become inadequate to continue publication on the basis of 1800 pages and indexes per annum, immediate curtailment has been effected by the consolidation into a single issue of v. 79, no. 1-2, July-Aug. 1938. Future curtailments will probably take the form of abridgements in size of the individual monthly issues.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COAST AND GEODETIC SURVEY

NOTE.—The Notice to mariners, giving changes in aids to navigation on the Atlantic, Gulf, and Pacific coasts, is published each week jointly by the Lighthouses Bureau and the Coast and Geodetic Survey. The Coast and Geodetic Survey publishes nautical charts of the coasts of the United States and its possessions, and aeronautical charts of the United States. New nautical and aeronautical charts and new editions are listed below. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the Office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—This service, issued by the Marketing Research Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States," and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1938 as follows:

- 1700—Summary foreign trade statistics. (5 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (1 statement.)
- 2600—Agricultural implements; issued by Machinery Division. (8 statements.)

NOTE.—The Congressional record containing the proceedings and debates of Congress is issued daily when Congress is in session, and indexes thereto are published fortnightly. The 3d session of the 75th Congress adjourned June 16, 1938; 6 numbers of the Record, containing speeches, were issued June 17, 22, 24, 27, 30, and July 5, respectively. The entries for the Record, June 17-30, 1938, appear in the Monthly catalog for June, 1938, p. 786.

The Record is sold by the Superintendent of Documents on the following terms: Single copy, 3 cents, if not more than 24 pages, and 1 cent more for each additional 8 pages; per month, \$1.50, foreign subscription, \$2.75. Subscriptions are payable in advance. Prices for the bound volumes of the Record, 75th Congress, 1st and 2d sessions, and prior Congresses, will be furnished on application. Send remittances to the Superintendent of Documents, Washington, D. C.

LAWS

NOTE.—The public and private acts and public and private joint resolutions are first published separately, and in this form are known as "slip laws." Heretofore, at the end of each session of Congress they have been published in a paper edition popularly known as Session or Pamphlet laws; subsequently the Session laws for the whole Congress were printed in a permanent bound edition entitled Statutes at large.

Beginning with the 75th Congress in accordance with provisions of S. 3440, 74th Congress (Public 724, approved June 20, 1936), the Session or Pamphlet laws will be discontinued and the Statutes at large heretofore published at the end of a Congress will be issued at the end of each session of Congress.

Each act of Congress in slip form now bears the chapter number of the Statutes at large in which it will appear later, as well as the session of Congress to which it belongs, but this information does not appear in the entries listed below.

- Private [act] 629-S35, 75th Congress.

NOTE.—The Division of Research and Publication, State Department, receives a small supply of the private acts and private joint resolutions which it distributes free upon application.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to \$5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see p. 977.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area of a quadrangle is 58 and 230 and 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. A number of the topographic maps covering 15' quadrangle areas in New Jersey are out of print, the Survey not reprinting these as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which publishes maps on a slightly different scale (1:63,360) representing approximately two and a half times the area of the Federal quadrangles. Maps of the regular size are sold by the Geological Survey at 10c each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,530 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1938, page 236.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress." Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—All publications of the department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled *Foreign relations of the United States*. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation *Treaties and other international acts of the United States of America*, which contains literal copies of the documents, followed by notes of a textual and procedural character. The daily mimeographed press releases of the department are made available to the public weekly in printed form. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press releases series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, National Archives, see Federal Register Division, *Federal register*, p. 1005.

NOTE.—With this issue of Press releases the Department of State is adopting a new and more attractive format and is also inaugurating the practice of including in each issue all addresses delivered by officers of the Department during the period covered. Heretofore addresses by the Department's officers have ordinarily been available only in separate pamphlets at an extra price. Under this new arrangement subscribers to Press releases will hereafter receive all the releases which the Department makes available regularly to newspaper correspondents in mimeographed form.

FEDERAL STANDARD STOCK CATALOG SECTION

NOTE.—The functions of the Federal Standard Stock Catalog Board (now Federal Standard Stock Catalog Section) were transferred from the Budget Bureau to the Procurement Division on Oct. 10, 1933.

In the list below, some of the Amendments, dated after Oct. 10, 1933, are for specifications issued by the Federal Standard Stock Catalog Board while it was under the Budget Bureau, and for these, the old classification T 51.7/7: is retained in order that they may be filed with the publications to which they belong. The pamphlets comprising sec. 4 of the Federal standard stock catalog are issued with perforations for insertion in binders.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. ‡

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject matter. Changes to Finance circulars are published in a single numerical series applicable to all pamphlets, without regard to calendar year. When any portion of a numbered Finance circular has been embodied in a lettered circular, that portion of the numbered circular will be rescinded. Issued with perforations for insertion in binders.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25-percent discount to dealers does not apply to the Congressional record, Federal register, Supreme Court reports, Catalog of copyright entries, and Climatological data for United States, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 458, 75-3.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington,

D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check List of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a; So 96/4 listed in the Monthly Catalog would be A 1.23^a; So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

SOILS AND MEN

The 1938 Yearbook of Agriculture entitled *Soils and Men*, Yearbook of Agriculture, 1938, is one of a series of Yearbooks issued in a new form and dealing comprehensively with major aspects of modern agriculture and has just been issued by the Agriculture Department. The first two of the new series, those for 1936 and 1937, covered the subject genetics and breeding and were issued under the title "Better plants and animals." The Committee on Soils was appointed to have general charge of this 1938 Yearbook which represents the collaboration between many men.

FOREIGN CROPS AND MARKETS

The Tariff Commission has completed indexing nine volumes (vol. 27-35, covering the dates July 1933-December 1937) of the periodical *Foreign Crops and Markets* issued weekly by the Agricultural Economics Bureau of the Department of Agriculture. The Tariff Commission is doing this work with the assistance of the Works Progress Administration, the basic material being furnished by the Agriculture Department with their permission for its use. They are now working on indexes to volumes 22-26 and 36. Several years ago the indexes for volumes 18-21 were issued by the Agricultural Economics Bureau. These indexes are obtainable from the Agricultural Economics Bureau.

NEW PUBLICATIONS

Two new series of publications have recently been issued by the State Law Index, Library of Congress, each relating to the subject Legislation. The publications are Special report no. 1 and State law digest, Report no. 1, respectively. The work of the State Law Index (a division directly under the Library of Congress) was formerly done by the Legislative Reference Service of the Library of Congress.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

CIVIL AERONAUTICS AUTHORITY

NOTE.—An agency to be known as the Civil Aeronautics Authority was created and established under the provisions of S. 3845, 75th Congress (Public 706, approved June 23, 1938), for the purpose of encouraging and fostering the development of civil aeronautics and air commerce in the United States and abroad, and for encouraging the establishment of civil airways, landing areas, and other air navigation facilities. An Air Safety Board is also created within the Civil Aeronautics Authority. Under provisions of this same act, all officers and employees of the Bureau of Air Commerce of the Department of Commerce and the Bureau of Air Mail of the Interstate Commerce Commission were transferred to the Civil Aeronautics Authority, by Executive order no. 7959, effective Aug. 22, 1938.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

COAST AND GEODETIC SURVEY

NOTE.—The Notice to mariners, giving changes in aids to navigation on the Atlantic, Gulf, and Pacific coasts, is published each week jointly by the Lighthouses Bureau and the Coast and Geodetic Survey. The Coast and Geodetic Survey publishes nautical charts of the coasts of the United States and its possessions, and aeronautical charts of the United States. New nautical and aeronautical charts and new editions are listed below. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the Office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—This service, issued by the Marketing Research Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States," and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1938 as follows:

- 1700—Summary foreign trade statistics. (5 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (1 statement.)

NOTE.—The World radio markets series, issued by the Electrical Division, is designed as an encyclopedia of information on foreign countries as radio markets. Primary issues are known as basic circulars, and each basic circular carries the complete information which it is the purpose of the series to supply. To outstanding principal circulars, from time to time, are added supplements which amend but do not replace the principal circular, and special supplements which contain information of momentary and expendable value. Subscriptions to this service cost \$2.00 per year, payable to the Foreign and Domestic Commerce Bureau, Washington, D. C. Past issues of the Radio markets series are sold at 10c. for each country, or for a complete set, \$2.00.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geographic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to \$5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see below.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area of a quadrangle is 58 and 230 and 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20

How to order publications—See information following Contents

by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. A number of the topographic maps covering 15' quadrangle areas in New Jersey are out of print, the Survey not reprinting these as the stocks become exhausted but referring applicants to the Department of Conservation and Development at Trenton, which publishes maps on a slightly different scale (1:63,360) representing approximately two and a half times the area of the Federal quadrangles. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.

NOTE.—The Reclamation era is a magazine for the farmers and the personnel of the bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the bureau's needs. The subscription price of the Reclamation era is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., and remittance in the form of postal money order or New York draft should be made payable to the Bureau of Reclamation. Postage stamps are not acceptable in payment of subscription.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,530 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1938, page 236.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—All publications of the department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The daily mimeographed press releases of the department are made available to the public weekly in printed form. Indexes to the Press releases are supplied semiannually as of December 31 and June 30. The Department of State includes in the Press releases series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (nos. 122-125, 128-129, and 131 of which are listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, National Archives, see Federal Register Division, *Federal register*, p. 1119.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and periodic pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, Louisiana; and wall maps in colors of the lower Mississippi River Valley from the Head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, Louisiana, scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn.; Milwaukee, Wis.; Chicago, Ill.; and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. ‡

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25-percent discount to dealers does not apply to the Congressional record, Federal register, Supreme Court reports, Catalog of copyright entries, and Climatological data for United States, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 458, 75-3.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check List of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^a : So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

COAST AND GEODETIC SURVEY

NOTE.—The Notice to mariners, giving changes in aids to navigation on the Atlantic, Gulf, and Pacific coasts, is published each week jointly by the Lighthouses Bureau and the Coast and Geodetic Survey. The Coast and Geodetic Survey publishes nautical charts of the coasts of the United States and its possessions, and aeronautical charts of the United States. New nautical and aeronautical charts and new editions are listed below. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—This service, issued by the Business Review Division, gives to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States," and it is only through subscription to appropriate statistical statements, that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1938 as follows:

NOTE.—The *Reclamation era* is a magazine for the farmers and the personnel of the bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the bureau's needs. The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., and remittance in the form of postal money order or New York draft should be made payable to the Bureau of Reclamation. Postage stamps are not acceptable in payment of subscription.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,530 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1938, page 236.

STATE DEPARTMENT

NOTE.—All publications of the department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The daily mimeographed press releases of the department are made available to the public weekly in printed form. Indexes to the Press releases are supplied semiannually as of December 31 and June 30. The Department of State includes in the Press releases series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (nos. 126, 127, 130, and 132 of which are listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

WAR DEPARTMENT

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. †

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject matter. Changes

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25-percent discount to dealers does not apply to the Congressional record, Federal register, Supreme Court reports, Catalog of copyright entries, and Climatological data for United States, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 458, 75-3.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check List of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a: So 96/4 listed in the Monthly Catalog would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

FIRE CONTROL NOTES

One of the periodicals recently approved for publication in printed form by the Director of the Bureau of the Budget is the Fire Control Notes, published by the Forest Service of the Agriculture Department. This periodical published intermittently, with a limited distribution, since December 1936, has now, beginning with volume 2, number 1, October 1938 issue, become a sales publication, issued quarterly at 15 cents a copy, 50 cents a year, foreign subscription 70 cents, obtainable from the Superintendent of Documents, Washington, D. C.

These notes will deal with fire research or fire control management, and will be composed of articles written by Forest Service officers, State forestry workers, and private operators.

WAGE AND HOUR DIVISION

The Wage and Hour Division was created under the provisions of S. 2475, 75th Congress (Public 718, approved June 25, 1938), which act states as follows: "There is hereby created in the Department of Labor a Wage and Hour Division which shall be under the direction of an Administrator, to be known as the Administrator of the Wage and Hour Division." The act also states that the Administrator may establish and utilize such regional, local, or other agencies, and utilize such voluntary and uncompensated services, as may from time to time be needed. Attorneys appointed under this section may appear for and represent the Administrator in any litigation, but all such litigation shall be subject to the direction and control of the Attorney General.

The principal office of the Administrator shall be in the District of Columbia, but he or his duly authorized representatives may exercise any or all of his powers in any place.

The Administrator shall appoint an industry committee for each industry engaged in commerce or in production of goods for commerce, and the members of this committee shall enforce the Fair Labor Standards Act and secure cooperation between the Government and private industries.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

Business information service. [Processed.] † except as indicated in note below.
C 18.182 and 183:

NOTE.—This service, issued by the Business Review Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

— United States foreign trade statistics, monthly statement, advance official data subject to revision. [Processed.] † various prices, see note below. C 18.185: no.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States," and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1938 as follows:

- 1700—Summary foreign trade statistics. (5 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (1 statement.)
- 2600—Agricultural implements; issued by Machinery Division. (8 statements.)
- 2700—Automotive; issued by Automotive-Aeronautics Trade Division. (4 statements.)

NOTE.—The World radio markets series, issued by the Electrical Division, is designed as an encyclopedia of information on foreign countries as radio markets. Primary issues are known as basic circulars, and each basic circular carries the complete information which it is the purpose of the series to supply. To outstanding principal circulars, from time to time, are added supplements which amend but do not replace the principal circular, and special supplements which contain information of momentary and expendible value. Subscriptions to this service cost \$2.00 per year, payable to the Foreign and Domestic Commerce Bureau, Washington, D. C. Past issues of the Radio markets series are sold at 10c. for each country, or for a complete set, \$2.00.

MARITIME COMMISSION

NOTE.—An agency to be known as the United States Maritime Commission was established under the provisions of H. R. 8555, 74th Congress (Public 835, approved June 29, 1936), to further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, and to aid in the national defense. The same act dissolved the United States Shipping Board Merchant Fleet Corporation, directing that all records, etc., be taken over by the commission, and transferred all the functions, powers, and duties vested in the former United States Shipping Board (later the Shipping Board Bureau under the Commerce Department) to the United States Maritime Commission. It also transferred to and vested in the commission all the powers and duties now vested by law in the Postmaster General with respect to existing ocean-mail contracts.

Three of the publications listed below were prepared by the Maritime Commission, but since they belong to a volume of reports begun by the Shipping Board prior to the transfer of its functions to the Department of Commerce, the old classification, SB 1.10/a:, is retained in order that they may be filed with the other reports included in the volume.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,530 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1938, page 236.

Executive orders.

NOTE.—The Federal register act, Public 220, 74th Congress (49 Stat. 500-503) provides as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

The distribution of Executive orders and Proclamations was transferred, beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will only be to appropriate agencies of the Government. If copies of the Executive orders and Proclamations which do not appear in the Federal register are desired, they can be obtained by placing a standing order with the Superintendent of Documents, Washington, D. C., with an initial deposit of \$5.00. The individual price will be 5c. per copy. The Register will be sold by the Superintendent of Documents on a subscription basis of \$1.00 per month or \$10.00 per year. Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries for such Executive orders and Proclamations, with reference to the Federal register, appear above and below.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress." Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The daily mimeographed press releases of the department are made available to the public weekly in printed form. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press releases series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, National Archives, see Federal Register Division, *Federal register*, p. 1360.

TAX APPEALS BOARD

NOTE.—The Tax Appeals Board issues its reports in pamphlet form (variously termed "advance parts" or "consolidated issues"), each pamphlet containing a month's decisions. These are later issued in bound volumes. The individual opinions are also published separately for each case as "advance sheets." Both the pamphlets and the separate opinions are sold on subscription by the Superintendent of Documents, Washington, D. C. The "advance parts" or "consolidated issues" are sold as follows: 20c. single copy, \$1.00 per volume, foreign subscription, \$1.60. The subscription price of the "advance sheets" is \$2.00 per volume, foreign subscription, \$2.60; single copies of the opinions usually 5c. The price of the bound volumes will be given on application.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25-percent discount to dealers does not apply to the Congressional record, Federal register, Supreme Court reports, Catalog of copyright entries, and Climatological data for United States, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 458, 75-3.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington,

D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check List of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a: So 96/4 listed in the Monthly Catalog would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

COAST AND GEODETIC SURVEY

NOTE.—The Notice to mariners, giving changes in aids to navigation on the Atlantic, Gulf, and Pacific coasts, is published each week jointly by the Lighthouses Bureau and the Coast and Geodetic Survey. The Coast and Geodetic Survey publishes nautical charts of the coasts of the United States and its possessions, and aeronautical charts of the United States. New nautical and aeronautical charts and new editions are listed below. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the Office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—This service, issued by the Business Review Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts, as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States," and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1938 as follows:

- 1700—Summary foreign trade statistics. (6 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (1 statement.)

NOTE.—The World radio markets series, issued by the Electrical Division, is designed as an encyclopedia of information on foreign countries as radio markets. Primary issues are known as basic circulars, and each basic circular carries the complete information which it is the purpose of the series to supply. To outstanding principal circulars, from time to time, are added supplements which amend but do not replace the principal circular, and special supplements which contain information of momentary and expendible value. Subscriptions to this service cost \$2.00 per year, payable to the Foreign and Domestic Commerce Bureau, Washington, D. C. Past issues of the Radio markets series are sold at 10c. for each country, or for a complete set, \$2.00.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geological atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to \$5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For maps and topographic maps see p. 1440.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500 and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area of a quadrangle is 58 and 920 square miles, respectively for those three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. A number of the topographic maps covering 15' quadrangle areas in New Jersey are out of print, the Survey not reprinting these as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which publishes maps on a slightly different scale (1:63,360) representing approximately two and a half times the area of the Federal quadrangles. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.
